Elephants: following connections across a landscape

A photograph of elephants approaching water shows one moment in a longer journey. Seasons, roads, farms and other water sources lie beyond its frame.

Purpose

Explore the topic by separating observations, sourced information and questions. This activity can be completed at a desk; it does not require intervention in a habitat or heritage site.

You will need: paper, a pencil and the reading source listed on the next page.

Activity steps

1. Sketch a water point, feeding area, road and farm.

2. Suggest two possible routes and one uncertainty for each.

3. Add the perspective of a farmer living beside the route.

4. Turn a proposed solution into questions that require local knowledge.

Name / group: Date: Source:

For any visit, follow the relevant site guidance. Observe without capturing, moving or feeding wildlife, or touching historic surfaces.

Your learning record

1. My sketch, diagram or direct observation

2. Information I checked in the source

3. My interpretation and unanswered questions

4. My next learning step
